

BUSINESS UPDATE

Digital Signage Templates opens **UK** sales office

London UK. June 21st, 2021. Chaam, Netherlands based, Digital Signage Templates, the fast-growing designer and developer of the Signage Template Platform, is pleased to announce that it will be opening a new sales office in the UK on July 1st, 2021, to support our ever-growing reseller and distribution channels.

Working closely with Audio Visual Intelligence, our appointed distributor for the UK & Ireland, who have over 20 years of experience in the AV industry, they are the perfect partner for the fast-moving integration market.

About Digital Signage Templates

Digital Signage Templates was born out of Digital Pixel Marketing, a specialized company in Digital Signage systems, who provide their clients Digital signage software, Professional hardware, Digital signage content, assembly and installation. Through their extensive knowledge of the market and customer requirements, the DST platform was developed.

Digital Signage Templates is a content platform for digital signage users and system integrators. Within this platform we offer professional digital signage content templates. Our templates are available for everyone, thanks to our ready-made designs, currently over 300 and increasing monthly. Anyone can create and import professional content into their own digital signage system with just a few clicks.
